Colors provided by **SHERWIN WILLIAMS.**

## Laminated Wood Colors

Quick-drying stains are used for Enwood Structures, LLC laminated wood products. Only the colors shown here are available. The colors of semi-transparent stain illustrated were applied to Southern Pine. Some color variance can be expected due to differences in the wood grain and density.

Colors shown are reproduced as accurately as printing processes permit. After advising us of your selection, an actual wood sample will be submitted for your review and final approval.

These colors are also available on Enwood's manufactured 2" Southern Pine decking.
